Professional Summary

Aspiring Java Full Stack Developer with a strong foundation in Core Java, Spring Boot, React.js, JavaScript, HTML, CSS, and MySQL. Skilled in developing responsive full-stack web applications and RESTful APIs with a solid understanding of Object-Oriented Programming (OOP) principles. Passionate about building scalable software solutions, solving complex problems, and continuously learning modern technologies. Eager to contribute technical expertise and collaborate effectively in a dynamic software development team.

Education

Malla Reddy Institute of Technology	Hyderabad
Bachelor of Technology in Computer Science Engineering (CSE)	- CGPA 6.0/10 2021-2025
Narayana Junior College	Hitech City
Mathematics Physics Chemistry (MPC)	- CGPA 6.5/10
Zilla Parishad High School (ZPHS)	Madhapur
Secondary School Certificate (SSC)	- CGPA 7.0/10

TECHNICAL SKILLS

Programming Languages :Java | Java Script

Frontend : HTML5 | CSS | Bootstrap | React.js

Backend: Core Java | JDBC | Servlets | Spring Boot | REST APIs

Database: MySQL

Tools & Technologies: Git | GitHub | Eclipse | VS Code | Postman

PROJECTS

Student Management System: [\[GitHubRepo\]](#)

Technologies: Java | Spring Boot | Spring Data JPA | REST API | MySQL | React.js

- Developed a full-stack Student Management System using React.js, Spring Boot, and MySQL.
- Implemented RESTful APIs to support CRUD operations, including full updates (PUT), partial updates (PATCH), search by ID, and record deletion.
- Integrated the React frontend with Spring Boot backend using the Fetch API for seamless data exchange.
- Built a responsive user interface with React Hooks for state management and dynamic rendering.
- Configured CORS and tested backend APIs using Postman to ensure reliable frontend-backend communication.

FaceYourInterview – AI-Powered Interview Preparation Platform: [\[GitHub\]](#)

Technologies: Java | Spring Boot | React.js | MySQL | REST APIs | Gemini AI

- Developed a full-stack web application to assist users with AI-powered interview preparation and resume analysis.
- Built RESTful APIs using Spring Boot and integrated them with a React.js frontend.
- Implemented resume upload, storage, retrieval, and persistent display using MySQL.
- Integrated the Gemini AI API to generate personalized resume feedback and improvement suggestions.
- Developed dynamic career roadmaps and resume template management based on selected job roles.
- Designed responsive user interfaces using reusable React components and asynchronous API communication.
